MARCH PHOTOS

Although April Fools' Day, also called All Fools' Day, has been celebrated for several centuries by different cultures, its exact origins remain a mystery.

Some historians speculate that April Fools' Day dates back to 1582, when France switched from the Julian calendar to the Gregorian calendar, as called for by the Council of Trent in 1563.

People who were slow to get the news or failed to recognize that the start of the new year had moved to January 1 and continued to celebrate it during the last week of March through April 1 became the butt of jokes and hoaxes.

These pranks included having paper fish placed on their backs and being referred to as "poisson d'avril" (April fish), said to symbolize a young, easily caught fish and a gullible person.

Historians have also linked April Fools' Day to festivals such as Hilaria, which was celebrated in ancient Rome at the end of March and involved people dressing up in disguises.

There's also speculation that April Fools' Day was tied to the vernal equinox, or first day of spring in the Northern Hemisphere, when Mother Nature fooled people with changing, unpredictable weather.

In modern times, people have gone to great lengths to create elaborate April Fools' Day hoaxes. Newspapers, radio and TV stations and Web sites have participated in the April 1 tradition of reporting outrageous fictional claims that have fooled their audiences.

In 1957, the BBC reported that Swiss farmers were experiencing a record spaghetti crop and showed footage of

people harvesting noodles from trees; numerous viewers were fooled. In 1985, *Sports Illustrated* tricked many of its readers when it ran a made-up article about a rookie pitcher named Sidd Finch who could throw a fastball over 168 miles per hour.

In 1996, Taco Bell, the fast-food restaurant chain, duped people when it announced it had agreed to purchase Philadelphia's Liberty Bell and intended to rename it the Taco Liberty Bell. In 1998, after Burger King advertised a "Left-Handed Whopper," scores of clueless customers requested the fake sandwich.
