

FOX clinician Chris Chill, MPT shows resident Juliette, 93, how to be stronger and live better longer.

LIVING BETTER LONGER.

FOX believes in our patients and their ability to achieve what they once thought impossible—optimal function to rehabilitate their lives. FOX is a physical and occupational therapy and speech-language pathology private practice specializing in house calls for older adults. Our goal is to help the aging population live better lives while enjoying their communities, families, and friends with as much comfort and independence as possible.

COLLABORATIVE CARE TEAM SUPPORT

- Consultation with residents for proper fitting of DME (for residents on caseload)
- Clinical collaboration when resident is returning from hospital, acute, or sub-acute rehab setting
- Lead clinician participates in care planning, fall risk reduction

FUNCTIONAL WELLNESS

- Clinically excellent physical and occupational therapy and speech-language pathology
- Specializing in geriatrics
- Treatments are administered based on clinical evidence using latest developments in geriatric wellness research
- Collaboration with nursing staff to assess resident fall risk and subsequent care needs

ADDITIONAL SERVICES

- Extend your wellness and rehab services beyond Medicare entitlement with FOX private pay options

PHYSICAL, OCCUPATIONAL, & SPEECH THERAPY.
FOX REHABILITATES LIVES.

RESTORING BALANCE.

FOX Restoring Balance is a true proactive, wellness-driven program, rather than a common illness-driven, reactive approach. Through communication with the nursing team on-site, residents may be identified as high fall risk by FOX using evidence-based functional outcome measures.

RESTORING LIFE.

FOX Restoring Life provides individuals with a unique stage-specific approach to dementia using prescribed interventions to increase the quality of daily interactions and manage the challenges that come with the diagnosis. We teach how to focus on what a person with dementia **can** do — not what they can't do.

WHY THE FOX WAY WORKS

- Outpatient Therapy on Wheels
- Geriatric House Calls™
- Medicare Part B Provider
- No Homebound Status Required
- No Hospitalization Required
- Program Directed by Full-Time Lead Clinician, PT, OT & SLP
